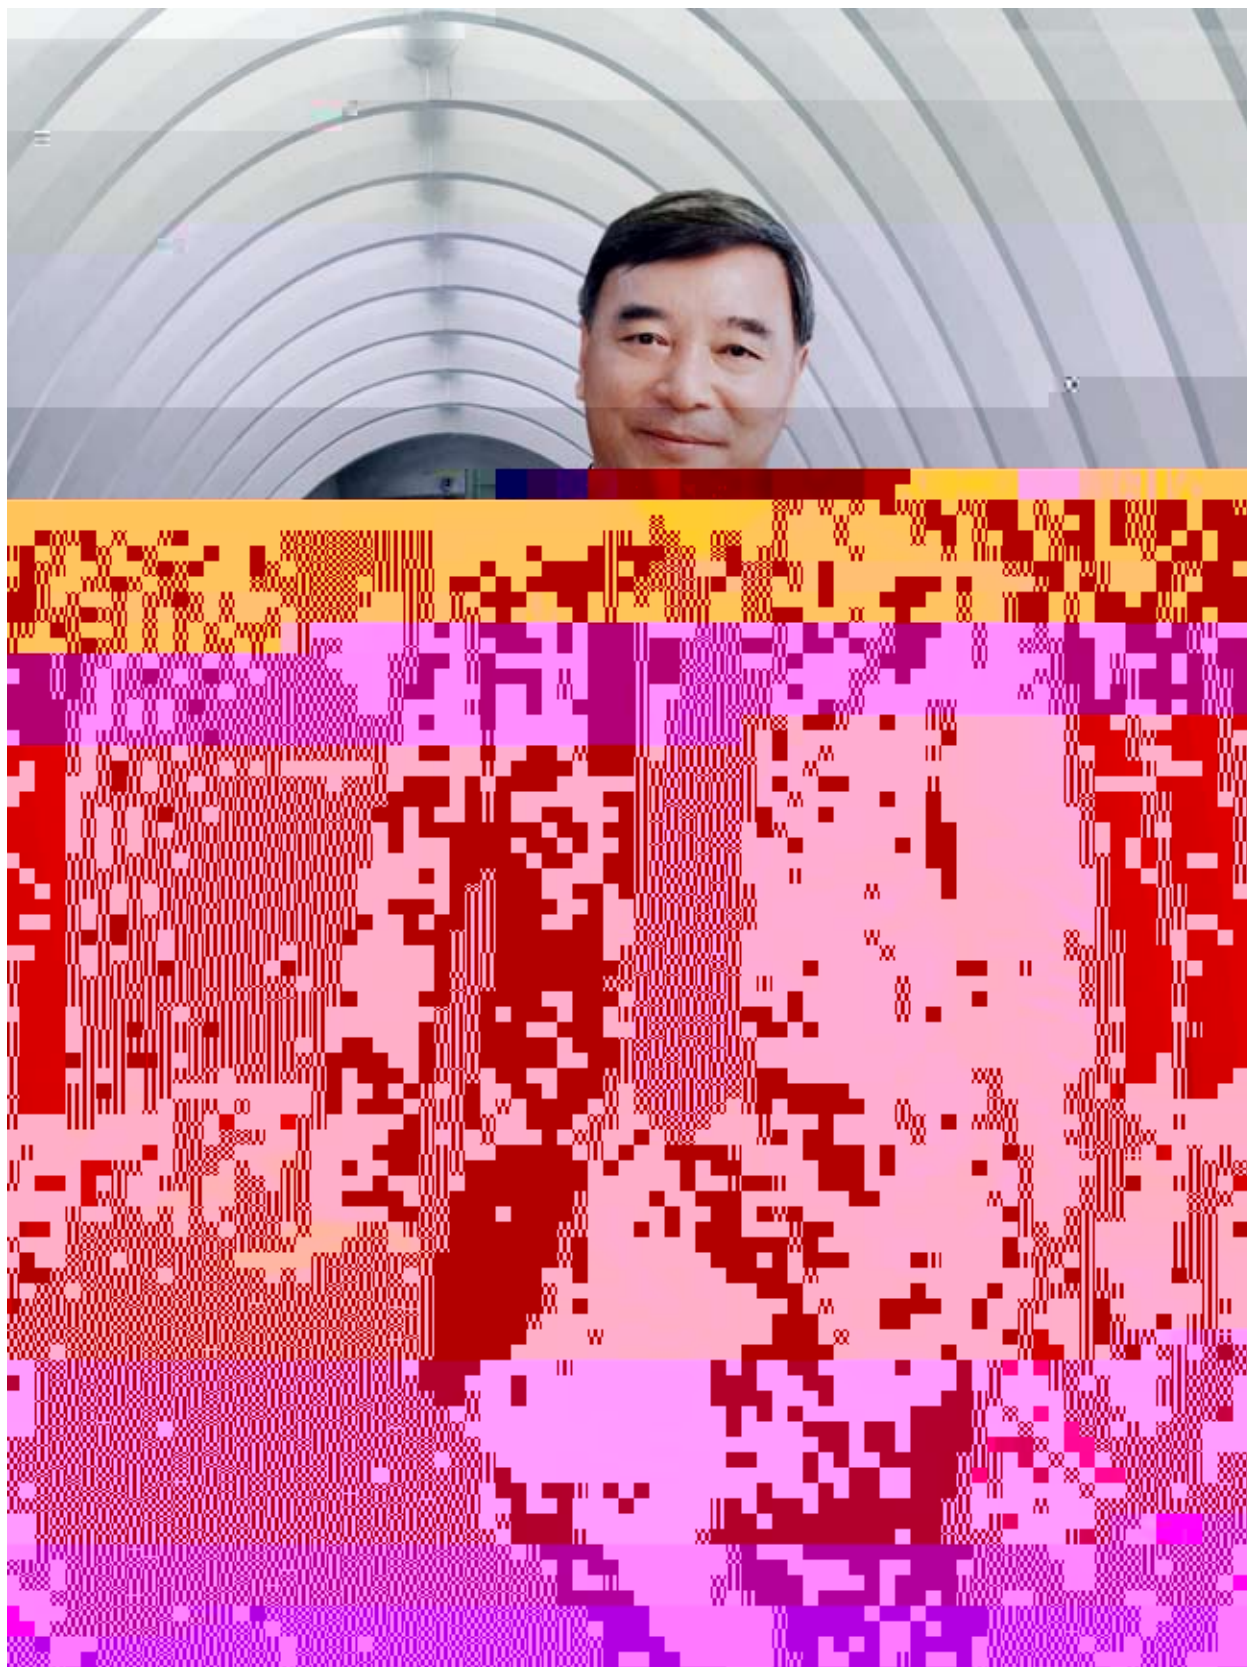

Figure 1 shows a 3D schematic of a rectangular box with dimensions L_x , L_y , and L_z . The box is divided into two horizontal layers. The top layer is labeled n and contains a small black triangle. The bottom layer is labeled n and contains a small black triangle. The diagram illustrates the geometry of the system.

Figure 1 displays a series of line drawings illustrating the progression of a child's drawing of a person from age 4 to age 8. The drawings are arranged in two rows: the top row shows the child's own drawing, and the bottom row shows the mother's drawing. The columns are labeled with age (4, 5, 6, 7, 8) and a percentage (%). The drawings show the development of features like head, torso, limbs, and facial features over time.
